

Picky Eaters Love It!

# Low Glycemic Blends

## Low Glycemic Blends

Low glycemic blends are formulated for dogs requiring a restricted carbohydrate diet with a low calculated glycemic load. The low glycemic blends are made with lean, high quality muscle meats and fresh, whole foods to offer pet owners a fresh food blend that is 100% complete and balanced while minimizing carbohydrate levels and calculated glycemic load.

As Fed	Low Glycemic Beef	Low Glycemic Chicken
Min Crude Protein	18%	16%
Min Crude Fat	5.0%	5.7%
Fiber	1.3%	1.2%
Max % Moisture	73%	76%
Calories / Bar	315	331
NFE (Carbs)	1.1%	0.9%
Omega 6:3 ratio	52%	57%
Linoleic Acid (O-6)	1.1%	6.2%
Est. Glycemic Load	0.54/oz.	0.49/oz.

- Even picky dogs love it!
- Naturally rich in vitamins, minerals, and antioxidants to control cell oxidation and promote a healthy immune system.
- Made with fresh restaurant quality meats, lightly baked to minimum FDA recommended temperatures for safety and convenience.
- Manufactured in our own facility to the same stringent FDA and USDA standards for restaurants.
- Higher protein level to meet energy demand and maintain muscle mass while restricting carbohydrates.
- Lean muscle meats to maintain healthy weight.
- High in omega-3 fatty acids to help stimulate the immune system.
- Balanced fiber to support healthy digestive tract.

### Key Ingredients

**LOW GLYCEMIC BEEF:** Beef Round, Green Beans, Carrots, Kale, Broccoli, Spinach, Other Fresh Ingredients

**LOW GLYCEMIC CHICKEN:** Chicken Breast/Thigh, Green Beans, Carrots, Kale, Broccoli, Spinach, Other Fresh Ingredients

Retail bags contain 7 food bars, or 3.5 pounds of freshly baked, frozen food. Store frozen up to 15 months. Once thawed, refrigerate for up to 5 days. Each 8-oz food bar is individually wrapped for easy storage, serving, and portion control. Thaw in the refrigerator before serving. If microwaving is required, we recommend only 10-15 seconds at a time, just enough to soften the food bar. Do NOT overheat.

## Lightly-Cooked Frozen
